## Features

Pre-coated steel exterior, aluminum interior  
Ventilated cooling system for uniform freezing  
Digital CAREL thermostat for precise temperature control  
Operating temperature range: 0°F to -8°F  
Vertical LED interior lighting (two sides & mullion)  
Sliding self-closing glass doors  
Heated double-pane tempered glass  
Adjustable painted wire shelves  
Eco-friendly refrigerant R290, ETL certified

## Technical Data

Width	80 $\frac{7}{8}$ Inches
Depth	29 $\frac{1}{8}$ Inches
Height	82 $\frac{7}{8}$ Inches
Power Cord Length	118 Inches
Interior Width	76 $\frac{1}{8}$ Inches
Door Opening Width	20 $\frac{1}{8}$ Inches
Interior Depth	23 $\frac{1}{4}$ Inches
Interior Height	60 $\frac{3}{8}$ Inches

## Technical Data

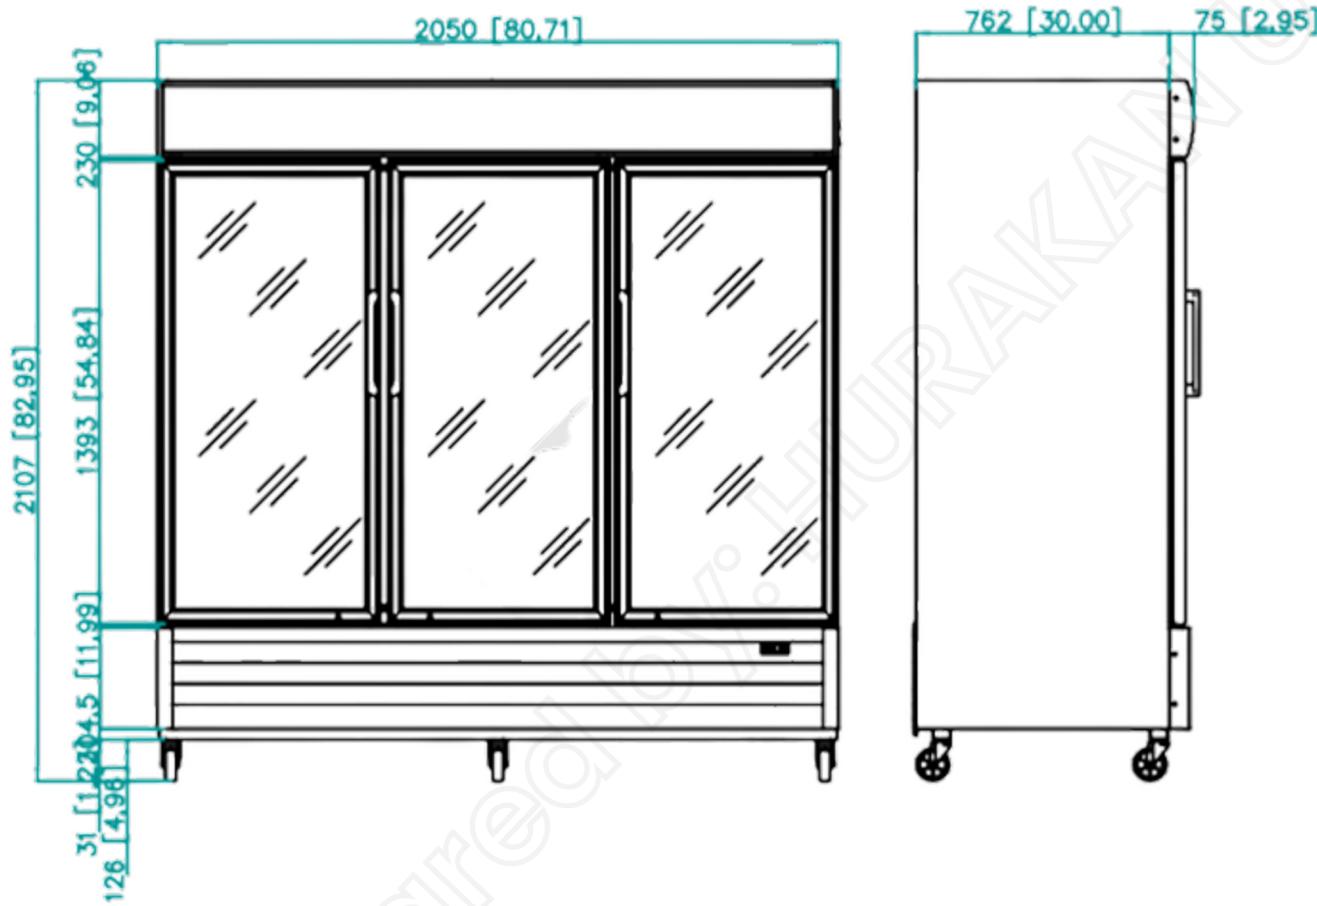

Hertz / Phase / Voltage	60 Hertz / 1 Phase / 110 V
Approval / Climate Class	ETL certified / Climate Class 3
Cooling Type	Ventilated
Capacity	55.7 cu.ft.
BTU (LBP)	2559 BTU
Evaporator	Finned Aluminum
Compressor	Cubigel x2
Construction	Steel painted / Aluminum sheet
Door Style / Type	Sliding / Self-closing / Glass
Interior Light	LED, two sides
Handle / Lock	External / Yes
Installation Type	Free Standing
Horsepower	5/8 HP
Amps	9 A
Number of Doors	3 Doors
Number of Shelves	12 (white painted wire)
Plug Type	NEMA 5-15P
Wheels/Casters	4
Refrigerant Type	R-290
Style	Counter Height
Temperature Range	0°F to -8°F
Style / Type	Vertical / Reach-In Refrigerator

## Plan View

## Notes & Details

These commercial upright freezers are designed for professional foodservice and retail environments, offering reliable low-temperature performance, durability, and a clean, modern appearance. The unit features a heavy-duty pre-coated steel exterior and an easy-to-clean aluminum interior. Sliding double-pane tempered glass doors provide excellent insulation and clear product visibility while allowing convenient access in high-traffic or space-restricted areas. Integrated vertical LED lighting on both sides and the mullion ensures frozen products are clearly visible from any angle.

A bottom-mounted dual compressor system improves efficiency and supports consistent operation. The ventilated freezing system ensures even cold air distribution throughout the cabinet. A digital CAREL thermostat maintains precise temperature control within a freezing range of 0°F to -8°F, making the unit suitable for frozen foods and other temperature-sensitive products. Adjustable painted wire shelves allow flexible storage configuration, while self-closing sliding doors help minimize cold air loss and reduce energy consumption. Operating with environmentally friendly R290 refrigerant and ETL certified, freezer is a dependable solution for grocery stores, convenience stores, restaurants, and retail operations requiring high-capacity frozen storage.

### ETL Sanitation

This product has been certified by ETL, a division of the Intertek Group, to meet applicable sanitation standards required for use in the United States and Canada.

### 5-15P

This unit comes with a NEMA 5-15P plug

### ETL, US

This product has been certified by ETL, a division of the Intertek Group, to meet applicable electrical product safety standards required for use in the United States.
