NOTES & DETAILS

The HURAKAN HKN-CBG24W gas countertop charbroiler is designed to provide powerful and dependable cooking performance in commercial kitchens. The unit is equipped with two independently controlled U-shaped gas burners, each producing 35,000 BTU for a total output of 70,000 BTU.

The U-shaped burner configuration supports improved heat distribution across the cooking surface. Individual manual controls allow the operator to manage each cooking zone separately during service.
