NOTES & DETAILS

The HURAKAN HKN-CBG36W gas countertop charbroiler is designed to deliver powerful and dependable cooking performance in commercial kitchens. The unit is equipped with three independently controlled U-shaped gas burners, each producing 35,000 BTU for a total output of 105,000 BTU.

The U-shaped burner configuration supports improved heat distribution across the cooking surface. Three individual manual controls allow the operator to manage separate cooking zones during service.
